DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine With these, both of vegetable origin a combined, designed to render them more active, and consequently more immediately effective

The Dock or rather a species of it now ranks as a medicinal plant second to no one of the vegetable kingdom With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them Recently he conceived the idea of uniting them which has resulted in the production of the one up and In this the ingredients are found to act harm ny and to lose none of the qualities which each separately possess

A larger portion of Sarsaparilla is soluble than has generally been supposed The extract about to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time without heat or any other accelerating agent None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation

The Compound is recommended for Scrofulas Erysipelas, Ulcerous affections Eruptions and Mercurial diseases Also for the numerous maladies arising from sedentary employments occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion

In diseases of warm climates, with which the proprietor become familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventative

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice, and it is believed to be in favor with the medical brethren in general, to whom he is known

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Joshua Burgin & Co No 143 Middle street, and Edward Mason, No 153 Middle street sole agents for Portland

KELLEY & CO'S
HIGHLY CONCENTRATED
SARSAPARILLA
Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives
Annually!!

10.000 CASES
Of SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which proof can be furnished This is the only medicine known to cure these diseases

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use It is put into the Bottle in FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it as it is objected to all other Sarsaparillas that they are Weak Clumsy Adulterated Sickish and are wholly incapable of reaching the seat and cause of the disease But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other and Six Times Better Safer Surer, and Cheaper than all others THIS Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH
KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is study the most distinguished of any in a large City for professional skill CERTIFIES, astonishing as it may seem that it actually CURED a case of Consumption with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some willmanufacture this IMMARKABLE Cure, but hundreds are knowing to the fact This INVALUABLE Sarsaparilla is also doing wonders in foreign cities And says

SIR BENJAMIN BRODIE,

Surgeon to the royal Family of England that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing many What a stupendous compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS It CURES when every thing else fails the

Severest Scrofula and Humors,

where the flesh falls off the bone and the bones are diseased and the DARK OF DEATH seems ready to seize the sufferer And the reason for this is, that it makes the BLOOD perfectly Pure, Rich Healthy Quick Free Patrons. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE where the Liver is Swollen and Painful Strength wasting Appetite gone Pulse weak, or feverish, Skin yellow Nerves deranged Blue stores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not tamper with the patient or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh and strength on a perfect, pure Blood, so that the cure is always thorough and permanent Otherwise, scatter or back of the disease but this EXTIRPATES it wholly from the system—thus saves the patient a life while others endanger it The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superiority Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made, as the 'HEALING ART' has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured so they ought, hence it is that all the medicines which are used with the hope of Cure so invariably and entirely fail But this Sarsaparilla has the SPECIAL ability, to cure every Disease Afflictive, or Pain, which comes under this head It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles

MADAME DOUPEE.
Female Physician,

RESPECTFULLY informs the Ladies of Boston that she will attend to all cases of Female Diseases.

Madame Doupee is well known in this country as a celebrated Female Physician from Paris. She has practiced in the city of New Orleans for ten years past with unparalleled success

Madame Doupee attends only to the diseases of females. She is the widow of Dr. Doupee of Paris, and uses the celebrated Pills known as Dr. Doupee's Female Monthly Pills. These Pills have long been in use in Europe and the United States, and are well known by ladies to be the great regulator of the monthly, having never been known to fail

Madame Doupee cautions married ladies not to use these Pills during pregnancy

Females laboring under various weaknesses peculiar to their sex, should consult Madame Doupee without unnecessary delay. Many cases of relief and a positive cure, in the worst of chronic diseases, have been effected by the use of these Pills, and a few days only are required to prove their virtues. Price $1 per box, with full directions for use. Sent by mail to any part of the country (post paid) with notice enclosed.

Madame Doupee may be consulted at her residence, No. 5, Pleasant St, from 9 A.M. to 8 P.M.

The Great Remedy for Gonorrhœa

GLEET, Stricture and all analogous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union during the last 30 years His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr D most solemnly affirms that during his practice of forty years this Paste has never, in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchaser on returning the empty boxes

For sale only by the original inventor and sole proprietor, Dr PETER G. DOUGLASS, at his Office No 55 Union street Boston at $5 per box where he can be confidently consulted on every disease, personal or in the [illegible] and the patient rely upon the most beneficial course of treatment that can possibly be adopted

Whig and Courier.

John N. Sayward.—Editor.

FRIDAY, JANUARY 5, 1849.

☞ The ill health of the editors of the Hingham Patriot, a good paper has caused him to relinquish his station and the paper is to be discontinued, as no one at present seems disposed to continue the publication

If the publication of a paper in Hingham was profitable, it would find publishers and editors, though it broke down the health of a man each year in a month The fact is that papers from the cities are circulated in that town—the editors of which regularly fall sick from the labor of editing them The people take papers and seem to think that if they take one or two of papers, or pay a cents to some other papers that is all that can be required of them Now They ought to do more than They ought to see first of all that the local paper of the county needed should be sustained the editor and for demanding their aid

The discontinuance of the Hingham Patriot, illustrates very well the effect produced upon the local press all over the country, for the want of interest in it and of determination on the part of the people, as to what papers they shall support With the local press fairly sustained and its proper influence felt among the people, with its appropriate sphere there it is very well to increase the circulation of papers from the great cities The cheaper they come, and the more they contain the better There is a place for them in the community But their cheapness is a sore evil, if that shall cause them to prevent the fair and proper support of the really needed local papers The community ought to take a fair and common sense view of this subject and act in reference to their true interests in the matter instead of acting upon the false notion that a paper published in one of the large cities, for general circulation throughout the whole country, can by any possibility contain the matter of essential importance to the people in the town, or county, or State in which they reside There are many things which the local and the foreign papers have in common, but there are points of difference, and these differences make even a small, dingy, local sheet, oftentimes and indeed always, of more value to the people in its vicinity, than the broadest pages of a foreign paper Here then, is the reason for the support of the local press, first and foremost After that then, it is for the people can get well conducted papers from the large cities at a cheap rate, for more extensive periodical reading that is furnished by the local press

We confess that we have some personal interest in this matter But our interest is identical with that of this community A press is needed here It ought to be an active vigorous, energetic and able press The meager the press here attains to in character the better and more creditable for the city the county, and State It would not become us to decide upon the character of the press here further than to say that so far as the Courier is concerned it falls greatly short of our design and our wishes It shall increase in value with increasing support

Now there is money enough goes out of our State annually, for the support of foreign papers, to sustain ably, and greatly increase the value of the local press throughout the State — People have not learned rightly to divide their support of the press and until this is done, the local press must languish, while the foreign papers get an unnatural support, and their proprietors grow fat and sick

☞ A late writer in speaking of the greater pleasure females derive from the beautiful than males, beautifully illustrates the matter by referring to children upon the beach

The little girl is in perfect ecstasies, as she looks at the sparkling waves that come bounding to her feet she shouts she leaps, she herself bounds towards them, then springs back as they approach, half frightened and half pleased—she knows not how to express her delight at the great playfellow she has found Meanwhile the boy her brother does no thing but throw stones at them that seems never wearied — The beach is a perfect armoury to him and he pelts the graceful waves remorselessly What is the charm of a sea beach? Sir Joshua, in an inland scene a garden or a lawn we have often noticed what exquisite pleasure a little girl will feel, as she watches a sparrow alight near her upon the ground in search of a bean or other food Her little frame quivers this time other little peculiar tremblings and chirpings about her She loads it but with the suppressed love we have all the endearing epithets her vocabulary supplies She is even dependent upon us that they are so few, she makes up by their frequent repetition She absolutely loves the little creature with all whose happiness she seems to have the keenest sympathy Her brother, the boy has nothing for it but to run for his stores, or he flings his hat at it Unfeeling fortunately, the stone is not, for, if his skill as a marksman responded to his destructive zeal, there is nothing that a stone would kill that would be left living, or that a stone would break that would be left whole

☞ Messrs Munn & Co of New York publishers of the Scientific American have favored us with a Pamphlet containing the Patent Laws of the United States, altogether with all the forms necessary for applying for a Patent, information in regard to filing caveats, with remarks on its uses, etc amount of fee required at the Patent Office, and every other information that is necessary to instruct a person in making applications The price is 12½ cents

☞ Our scientific and really facetious friend, Dr George W Holden, after an absence of some two or three years, has returned to this city, resumed his former shop, and is as devoted, scientific talkative and interesting as ever Every body is glad the Doctor has returned because of his great skill as an apothecary and because of his excellent company and good citizenship We bring his notices before the public with much pleasure, through our advertising columns.

☞ The Bangor Market is now constantly supplied with Venison and that of fine quality, fat and well dressed We refer to the Stalls of Messrs Smith & Jones and Messrs M & D C Rice for samples

The Fuel Society.

This society has for several years dispensed a very acceptable charity to poor widows and to families in straitened circumstances—carrying them by the dread points of a hard winter, without reducing them to the necessity of calling upon the Overseers of the Poor for aid An excellent institution, which by a little timely aid, and the helping hand generously thrown open, not only confers immediate comfort, but saves the feelings from the shock produced by the person becoming recipient of pauper support.

The annual meeting of this society takes place this afternoon at the City Hall There have not generally been largely attended nor perhaps is it necessary they should be, and our object is not so much to call attention to the meeting as to the society, and the good it is doing among the afflicted, and to ask of all our citizens to remember it in their charities There are a few noble souls who have labored long and faithfully in behalf of humanity through the instrumentality of the Fuel Society Their labors have been unseen by the many Their reward is to be found in the consciousness of having discharged with faithfulness an important office to those who were unable to help themselves and also in the heart warm thanks and grateful prayers of the many who have been comforted

Come, O Come, to the Sale.

A sale of many choice and valuable articles from the Ladies of the Frankfort Sewing Circle and other benevolent donors will be made at the Hall of the Frankfort House on Wednesday Evening January 10th at 6 o clock

O come, O Come to the Frankfort sale,
Where the Fair ones move so lightly!
To the well crowned board and the festival,
Where the lamps are burning brightly!
Its meeter far for a high-born soul
Than scenes of low mirth, or the deadly bowl

O tarry not now by your dear fire side
When Charity a flag is waving
But open your hearts and your purses wide
To give in others a saving
Then don your broad wrapper and plume
And come come away from her's plenty of room

For here lovely ladies with laugh ng eyes,
And kindliest hearts will greet you,
Will help you to coffee, rich cake or pies,
All just as the wish shall take you
Come, don't refuse so tempting an offer,
Though it may cost you many a copper

For heaps of bright shillings are wanted yet,
To make ready a House for Preaching
And carpets, and fixtures we hope to get
With the gains of this social greeting
For many a heart has the nerve put on,
And they will not rest till the thing is done

From the Star Spangled Banner

THE TWO PHYSICIANS,

OR, THE PORK AND BEANS BANQUET

A TALE

Doctor Parkins and Doctor Baldwin two physicians of considerable note and of extensive practice, the former residing in the town of B——k Me, and the latter in the town of A——h, Me, are the particular and identical individuals of whom we have an anecdote to relate Dr B Baldwin was decidedly an eccentric and an agreeable old fellow, besides being a man that understood his profession, and in all cases, we will do him justice to say, he was kind and assiduous in the discharge of his duties to his patients But Dr Parkins was an epicure—he loved good roast beef and boiled mutton, rare done—nothing suited him better than a roast turkey well stuffed—or a pair of boiled chickens, with oyster sauce, he was also fond of a good plum pudding, and mince-pie, no matter how richly made he never refused, in short, the Doctor loved all the good things in this world in the shape of food Now all these things Dr Parkins would have and did have upon his table at seasonable times, and more particularly when he had an acquaintance to dine with him But of all kinds of food known to man, *baked beans* was the greatest abhorrence to the epicurean physician

It so happened that Dr Baldwin frequently was called to B——k in consultation with Dr Parkins, and on these occasions Dr B was invariably invited to dine with Dr P, when he was regaled with as sumptuous a dinner as the most inveterate gourmand could desire On the other hand, Dr Parkins was often called, professionally to B——k, when Dr Baldwin would reciprocate the favor and invite his brother physician to dine with him, but on all these occasions, and they were many and without a single exception, baked beans was the food, and on the last occasion, the following dialogue took place

'Well, Dr Parkins, you will dine with us today?' said Dr B

'Certainly—certainly, Doctor'

Unfortunately, this was baked-beans-day, Dr —— always bakes baked beans on Fridays

'You are fond of baked beans I perceive, for the last time I was here—it was Saturday—you had them then'

'Ah, Dr, you're right—quite right—Saturday—yes, Saturday, that indeed was the day—we have enjoyed it so Friday'

'Just the same instead that, Dr. Baldwin, was Monday—you had baked beans on that day, also.'

'Yes, *yes*—that is but—ah! we have two baked-beans-days in a week!'

'But you invariably have baked beans the day that I come, how does it always happen?'

'Well, it must appear a little singular—a striking coincidence, I may say—that we *do* always have baked beans whenever you happen to come to town, I must confess I am very fond of beans—my family are fond of beans—my friends are fond of beans——!'

With one exception, interrupted Dr Parkins

'Very *sorry*, Dr I do not know when you're coming—just as well get something besides; but I truly think there is no food like baked pork and beans—I could live upon beans—I desire nothing better for dinner than beans'

'There is no accounting for tastes,' replied Dr Parkins, who perhaps for the twentieth time had dined with his friend, and on every occasion baked beans made the principal feature of the dinner

Now, perhaps many of our readers may think that the reason Dr B so often made a dinner of baked beans was in consequence of his love for that dish, but it was not so, it was all owing to the Doctor's parsimony, whose palate was quite as little in love with baked beans as that of Dr Parkins' It was all owing to Dr B's extremely parsimonious habits—and his neighbors often declared that he acquired his wealth by eating *baked beans* Whether he did or did not, we will not argue or decide the point but certain it is that he loved roast beef, roast turkey, etc, etc, quite as well as Dr Parkins did, and he always looked forward with pleasure to the time when he should go to B——k and dine with his friend who afforded such sumptuous dinners

It is not strange that Dr Parkins also suspected the reason of his being so often regaled on this cheap article of food, and he determined in some way or other to give Dr B to understand that he preferred roast beef and other succulent dishes to pork and beans It was not long subsequent to the last time he dined on beans at Dr Baldwin's, that the latter was professionally called to consult Dr Parkins in regard to a patient who resided some two miles west of B——k Before going however, the Dr invited his colleague as usual to dine with him on their return, and took pains before he started to order a sumptuous dinner, and also invited several other friends to dine with him at four o'clock, some three hours later than usual These preparations, however, were not previously made known to Dr B

With a slow gaited nag they left the village at meridian, and reached their patient at 1 o'clock, another hour was consumed in examining, conversing and prescribing, and most untimely as Dr B thought Dr P's horse required shoeing, and this occupied another hour Dr B made many first rate important cures in many ways, but Dr P seemingly unnoticed all the symptoms, and acted as leisurely as if he regarded the flight of time as of no particular consequence

It was three o'clock—all was seemingly in readiness to return, and both had got comfortably seated in the vehicle, when Dr P, to the no small dissatisfaction of Dr B bethought himself that the wheels of the vehicle squeaked in coming up, and that to have them well greased before starting was a matter of no little importance So once more they alighted, and the process of wheel greasing was gone through with, when they again took their seats, and the slow gaited animal arrived at Dr P's house precisely at half past four Dr B was hungry—*very* hungry—and to quote his own expression, he was "raven ously hungry"

'Never mind,' remarked Dr P, 'we shall find a sumptuous dinner, steaming hot, waiting us Roast beef roast turkey, ducks, and something Dr B, that you *particularly* like'

Dr B inwardly smacked his chops

As Dr P had ordered, there was a table sumptuously spread—a banquet fit for a prince or an alderman The invited guests were placed around the table, but Dr B was the most honored, and a seat was assigned him beside his hospitable host

In order to make ourselves perfectly understood we may as well be particular as to the situation of the principal viands upon the table — At the head, a noble, large fat turkey reared upon a huge white platter—opposite to where one of the Doctor's particular friends sat there was a sirloin of beef that would have moved the stomach of an alderman—equal distant upon the table there was a twelve pound leg of mutton, boiled with caper and oyster sauce, a tempting sight to any epicure; a brace of ducks, and several other delicacies, which are termed *entrees* at our fashionable restorators and hotels But conspicuous among them all, and between Dr P and Dr B there rose up a large high brown pot, filled to the brim with BAKED BEANS, surmounted by six cubic inches of fat pork, with a thick and well browned, and cut into small squares Dr P leisurely carved the luscious looking turkey while the other guests carved the other viands, and as there seemed nothing particular for Dr B to do unless he shared the pork on the top of the beans, he performed that operation without the remotest idea that he should satiate his gnawing appetite with a single mouthful of it, or the beans which reposed under it

Dr P, after carving the turkey, filled a large plate from the contents of the pot, and placing it before his right hand guest, said to the others with a sly wink, who had heard of the Doctor's preference to beans—

'Dr Baldwin prefers beans to any other food—he has often told me there is nothing equal to beans'

Dr B, in spite of his intentions not to eat of his common, almost every day food, thought that considering his host had spoken of the truth, he had better finish the beans, when he would regale his appetite with some of the more luxurious dishes He had swallowed nearly the last mouthful, when the guest who presided over the roast beef saluted him to take slices of it. But before Dr B had time to assent, Dr P interrupted him, and commenced ladling out the beans into his colleague's plate, saying—out the beans

'Doctor Baldwin loves *beans*—he is excessively fond of BEANS!—in short, he *lives* upon beans!

In a few moments Dr Baldwin was again nearly empty, when the guest who had served the brace of ducks had invited him to try a nice bit of the duck—a real canvass back, and truly luscious, at the same time raising the knife and fork to help him,

'Thank ye—with all my ——'

Excuse me, Doctor, interrupted the host, again ladling out the beans into his plate; 'I did not perceive you were not well helped—try another plateful of your favorite food Gentlemen,' continued he, turning to the guests 'Dr Baldwin is particularly *fond* of beans'—in his opinion nothing comes up to *beans*' I never dined with him in my life on any thing but beans' The Doctor would starve without BEANS!

Another pause in the conversation and the gastronomous exercise was resumed Dr B said nothing, but hoped with confidence that after the third plate of beans was demolished, he should get a nice bit of the turkey, the duck, the beef, or any dish beside beans that was visible on the table, before his appetite was satiated—He had just concluded when his host said to him at the same time thrusting his carving knife into the second joint of the turkey:

'Dr Baldwin, here's a second joint fit for the Lord Mayor of London—let me—after supplying him,' Excuse me, Doctor—I forgot for the moment what I was about; and then turning to the friends, said, 'gentlemen I believe I have told you that Dr Baldwin' is prodigiously fond of beans! He can't answer anything beside!! He was a-a-a-saying but beans!!"

His guests could restrain their risibilities no longer, and they burst out into a loud laugh at the Doctor's expense, which in fact was the first time he had ever been known to be at a loss for a reply, and which, in fact, he was not at this time, but he was determined to have the last word, and he continued—

'Yes, yes—that is but—ah! we have two baked-beans-days in a week!'

Dr P, finding that he was completely foiled, and that his guests were highly amused at the Doctor's expense, and that he was determined to have the last word, he continued—

'Yes, Dr Baldwin, I am fond of beans, and I am proud to say that I am in good company, for I have the honor to be a member of the Bean Society, and I am proud to say that I am a member in good standing, for I have paid my dues, and have been present at every meeting of the society, and I am proud to say that I am a member of the Bean Society, and I am proud to say that I am a member of the Bean Society, and I am proud to say that I am a member of the Bean

FOR THE STARS
GALVANIC BELTS
BRACELETS, NECKLACES,
AND
MAGNETIC FLUID.

For the Removal and Permanent Cure of all
NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the
NERVOUS SYSTEM.

This beautiful and achievement application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medical discovery of the Age*.

Dr. CHRISTIE'S GALVANIC BELT
and
MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,
Dyspepsia or Indigestion,
RHEUMATISM, Acute and Chronic,
GOUT, EPILEPSY, LUMBAGO,
DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,
Liver Complaint,
SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,
and all
Nervous Diseases,

which complaints arise from one simple cause, namely

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system while under the strengthening, life giving vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength elasticity and vigor

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application* in place of the usual mode of dragging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction

They strengthen the whole system equalize the circulation of *the blood*, promote the *secretions* and never do *the slightest injury* under any circumstances Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up and every thing else been tried in vain

In illustration of the power of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA or any other chronic or Nervous Disorder In ordinary cases stimulants are taken, which by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a dyspeptic sufferer in the worst symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS OFTEN SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

The following letter narrating one of the most remarkable events in the annals of Medical Science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation —

SIDNEY, New Jersey, July 12, 1848

DR. A. H. CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men, but here their prescriptions failed. About *fourteen* years since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish In the severer paroxysms the skill of my physicians sometimes afforded me great relief, but this relief was only temporary Further in the winter of '45 and '46 in consequence of preaching a great deal in my own and various other churches in this region I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors *My nervous system* too *was then thoroughly prostrated*, and as my Bronchitis became worse so also did my Dyspepsia and Rheumatic affection—thus bringing that these disorders were connected with each other through the medium of the *circulation of the blood*, producing *secretions and*
